PROFESSIONAL SUMMARY

Software engineer with 8+ years of experience in web application development with strong understanding and hands-on experience in both front-end and back-end technologies. Successful in leading, managing multiple software engineering teams, delivering quality products on time and within budget. Expertise in multiple phases of software development lifecycle, from requirement gathering to development, testing and deployment. Passionate about building high-quality software and project management.

PROFESSIONAL EXPERIENCE

Software Developer Research Information System, 09/2024 – Present | Dresden, Germany
IOER - Leibniz Institute of Ecological Urban and Regional Development

- Eliminated 40% manual processing by digitizing research and administrative workflows across multiple departments
- Accelerated page load time by 25% through query optimization and caching (Angular, React, Laravel, MySQL)
- Designed and maintained 10+ RESTful APIs integrating external partner systems with high reliability
- Built a structured document management system improving retrieval and audit traceability for large datasets
- Raised test coverage to 80% by enforcing clean code, OOP, and modular architecture
- Ensured 99% uptime on GDPR-compliant systems through monitoring and rapid issue resolution
- Streamlined workflows for stakeholders by replacing manual processes with custom web tools

Full Stack Web Developer, LIWETEC GmbH 08/2023 – 07/2024 | Bobingen, Germany

- Scaled enterprise platform supporting 500+ concurrent users across multiple countries
- Cut release cycle time by 30% by migrating monolithic architecture to microservices (6+ services)
- Architected 15+ REST APIs improving inter-service communication and reducing latency
- Decreased bug regression by 35% using OOP, dependency injection, and structured architecture patterns
- Increased test coverage to 75% and established code review practices across the team
- Slashed deployment time significantly using Docker and CI/CD pipelines
- Delivered GDPR-compliant solutions in Agile/Scrum environments

Intern / Work Student - Full Stack Developer, Bosch Rexroth AG 05/2022 – 06/2023 | Ulm, Germany

- Built 3 enterprise applications used by global engineering teams across multiple countries
- Reduced manual data entry by 50% through API integrations across internal systems
- Boosted release stability by 40% via CI/CD pipelines and Azure DevOps
- Secured 500+ users with authentication, RBAC, and 2FA implementation
- Optimized API performance by 30% through debugging and query optimization
- Delivered features on time in Agile development cycles

Associate Software Engineer, Yanolja Cloud Solution 09/2016 – 03/2021 | Surat, India

- Integrated 20+ third-party APIs including Booking.com, Expedia, Airbnb, and Agoda
- Processed 10,000+ daily transactions ensuring high reliability and data consistency
- Strengthened database performance by 30% through query optimization and indexing
- Sustained 99.5% uptime during peak usage periods with proactive system monitoring
- Reduced feature delivery time by 25% by refactoring legacy systems using MVC architecture

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, Angular, Angular Material, React, NextJS, Tailwind CSS, SCSS, HTML, CSS, Material UI

Backend: PHP (Laravel, Symfony, CodeIgniter), NodeJS, Python

Databases: MySQL, PostgreSQL, MongoDB

APIs: REST, SOAP, JSON, Swagger/OpenAPI

DevOps & Tools: Docker, Azure, AWS S3, CI/CD, Git, Jira, Keycloak

Soft Skills: Project management, Team management, Decision making, Leadership, Research methodology, Resource allocation, Agile, Scrum

EDUCATION

M.Sc. Automotive Software Engineering, Technische Universität Chemnitz 04/2021 – 03/2023 | Chemnitz, Germany

Master of Computer Applications (MCA), Savitribai Phule Pune University 06/2014 – 04/2016 | Pune, India

Bachelor of Computer Applications (BCA), Saurashtra University 06/2010 – 04/2013 | Rajkot, India
