Professional Summary

Highly accomplished Full Stack Web Developer with over 7 years of hands-on experience in designing, developing, and maintaining sophisticated web applications. Expertise spans both frontend and backend technologies, with a strong emphasis on scalable architectures and high-performance solutions. Recognized for exceptional problem-solving skills and effective team collaboration. Committed to delivering seamless user experiences and ensuring efficient project delivery. Proven ability to continuously enhance web development practices, ensuring robust, secure, and maintainable codebases.

Professional Experience

08/2023 – 07/2024

Full Stack Web Developer | LIWETEC GmbH, Bobingen

- Developed and maintained the Elevator Portal, the first globally available online platform for the elevator industry, utilized by companies of various sizes worldwide
- Integrated technical calculations for the design of elevator components, adhering to industry standards and guidelines
- Implemented database-driven tools for elevator system planning, configuration, and component calculations
- Created detailed analyses, comprehensive evaluations, and visually engaging reports to support decision-making processes
- Demonstrated extensive specialist knowledge and consistently delivered high-quality programming solutions
- Identified with tasks and exhibited high levels of commitment and initiative
- Acquired new specialist knowledge quickly, mastered responsibilities independently and confidently, and applied profound expertise effectively
- Ensured high levels of reliability and conscientiousness, consistently meeting deadlines under demanding conditions and high pressure
- Documented processes and workflows to facilitate knowledge sharing and increased team productivity
- Offered technical support to ensure seamless user experience and maintained the Elevator Portal for real-time updates and adaptability
- Provided exemplary behavior towards superiors and colleagues, contributing to a positive work environment

Technologies: PHP, Laravel, Angular, Angular Materials, JavaScript, TypeScript, Ajax, jQuery, HTML5, CSS, SCSS, MySQL, Docker, GitLab

05/2022 – 06/2023

Intern/Work Student - Full Stack Developer | Bosch Rexroth AG, Ulm

- Designed cross-browser and cross-device compatible websites -"Smart Project Management (SPM)", "BR Component Prototype Tool and "Application Product Selector (APS)"
- Design secure, maintainable, scalable architecture as well as responsive user interfaces of these applications according to customer-specific and business requirements
- Improved high-performance by testing and fixing bugs, documenting processes, creating and testing RESTful APIs using Postman to serve 150+ worldwide project information as well as 200+ concurrent solution partners data to the frontend

- Developed authentication, authorization services for APIs and implemented a robust role management system for global users
- Other features included Two-factor authentication, project tracking systems, and testing application, alongside Lazy-loading routing and server-side validations
- Utilized Agile methodologies to ensure timely and budget-conscious project delivery, while fostering effective cross-departmental collaboration through strong communication skills

Technologies: SPM (Angular, Angular Materials, TypeScript, HTML5, SCSS, PHP – MySQL (OOPs concepts), NPM, node.js, REST APIs, Azure DevOps, LAMP stack)

09/2016 – 03/2021

Associate Software Engineer | Yanolja Cloud Solution, (formerly eZee), India

- Integrated new channels and enhanced existing ones using third-party APIs as a Channel Manager Executive
- Provided top-notch technical support to key channel partners, including HostelWorld, Agoda.com, Traveloka, Goibibo, and Paytm
- Efficiently managed channels, resulting in increased in partner satisfaction and revenue boost for partners like Booking.com, Expedia, and Airbnb
- Expert in third-party API integration (SOAP/XML/JSON) and rapid resolution of bug/defect issues within 24 hours, improving product quality
- Enhanced system performance through RESTful API analysis, facilitating seamless data exchange between front-end and back-end systems
- Achieved reduction in loading times for critical application functionalities through coding optimizations
- Reduced database query time, streamlining data storage and management processes for improved application performance
- Collaborated with the QA team to decrease post-deployment issues through comprehensive testing methodologies
- Demonstrated exceptional collaboration, self-organization, and dedication, ensuring 100% on-time project delivery
- Effectively handled priority technical support, leading to reduction in product bugs and defects
- Implemented MVC (Model-View-Controller) architecture to ensure modularity and scalability of applications

Technologies: PHP (OOPs Concept), PHP Frameworks, Smarty, Html, CSS, Bootstrap, JavaScript, Ajax, jQuery, MySQL, MongoDB, Amazon S3 Server, Rest APIs, Curl, XML/SOAP/JSON, MVC

01/2016 – 06/2016

Intern- Unity Game Developer | TechLeaper Systems Pvt. Ltd, India

- Developed gameplay mechanics, UI features, and game systems for mobile and PC games using unity3D
- Collaborated with artists and designers to implement game assets and visual effects
- Optimized game performance and memory usage for smooth gameplay experience across various devices
- Successfully launched “Nuts Run” video game using technologies such as Unity, C#, and JavaScript

Technologies: Unity 3D, Unity Component, C#, JavaScript

Educational Details

04/2021 – 03/2024

Master of Science in Automotive Software Engineering (ASE) (Grade: 2.5)

Technische Universität Chemnitz, Saxony, Germany

Main Courses: Software Service Engineering, Database and Web Technique, Network Security, Machine Learning, Media Encoding, Research internship in web developer & designer

06/2014 – 04/2016

Master of Computer Applications (MCA) (Grade: Outstanding)

Savitribai Phule Pune University, Pune, India

Main Courses: Web Technologies, Cyber law and Information Security, Advance Java, Object Oriented Software Engineering, Advance Web Programing, Data Structure using C, (OOP)C++

06/2010 – 04/2013

Bachelor of Computer Applications (BCA) (Grade: First Class with distinction)

Saurashtra University, Rajkot, India

Main Courses: Web designing, object-oriented programming, relational database management system (RDBMS), Unix & Shell programming, E-commerce, and cyber security

Technical skills

Web Technologies	: HTML/HTML5, CSS/SCSS, JavaScript, TypeScript, jQuery, Bootstrap, JSON, XML, SOAP, AJAX
Programming	: PHP (Core, CodeIgniter, Laravel, Symfony, Smarty, WordPress), Node, Python
Frameworks	: Angular, React, Vue.js, Nuxt.js
Databases	: MySQL/SQL, MongoDB, PostgreSQL, Amazon S3 Server
Web Services & Cloud	: Rest APIs and APIs testing (Postman & Swagger), LAMP, Microsoft Azure
Version Control & other	: GIT, GitHub, GitLab, Bitbucket, Azure DevOps, CI/CD, Jira - Scrum, Kanban, Docker, Confluence
Operating System	: Window, Linux
IDEs	: Visual Studio Code, PHPStorm, Komodo

Languages

English (Fluent)	German (A2)	Gujarati (native)	Hindi (Fluent)
------------------	-------------	-------------------	----------------

Extra-curricular Activities & Achievements

- Recognized as a workaholic three times within six months at eZee Technosys Pvt Ltd
- Participated in three internal coding events at eZee Technosys Pvt Ltd

Interests & Hobbies

Photography	Videography	Traveling	Exploring New Things
